

Discharge Summary

Patient Name: Jane Doe

Medical Record Number: 987654321

Date Admitted: February 20, 2025

Date Discharged: February 25, 2025

Attending Physician: Dr. Sarah Thompson

Resident Physician: Dr. Mark Brown

Diagnosis:

- Acute Myocardial Infarction (Heart Attack)
- Hypertension
- Hyperlipidemia

History:

Jane Doe, a 58-year-old female, was admitted with severe chest pain and shortness of breath. She was diagnosed with an acute myocardial infarction. Coronary angiography was performed, showing a 90% blockage in the left anterior descending artery. A stent was placed successfully.

Treatment:

- Aspirin 81 mg daily
- Clopidogrel 75 mg daily
- Atorvastatin 40 mg daily
- Metoprolol 50 mg BID

Follow-up:

Jane is advised to follow up with her cardiologist in two weeks and undergo a stress test.
